

Business Shows

- 16.** It is important to note that when one travels to attend a business show or conference, one should keep in mind that going to parties that are organized by non-Jewish companies (or that are planned in the spirit of events attended by non-religious or non-Jews), is usually prohibited according to *halachah* because of the many severe transgressions one may come to commit by being in such places. (This is in addition to the prohibition of eating and drinking at non-Jewish meals.)
